- No Scratching or Damaging!
- Industrial Strength
- Solves Clearance Problems

**Easy to Use!  
Works in  
Tight Areas.**

P/N 7425 – Sold as a Set

Instructions for use:

1. Place strap around object so the strap will fit around circumference
2. Pull strap tight until curved end of wrench is snug against strap.
3. Hold strap tightly in your grip and apply torque. Turn in direction of arrow
4. When opening jars, tops of bottles, etc., ensure strap is centered on the lid and clear of the jar.
