

## JUNIOR BASKET STRAINER INSTALLATION INSTRUCTIONS

### MODEL No's: I30

#### Installation Instructions:

Recommended installation by a Professional Plumbing Contractor

1. Disconnect and remove existing flange / strainer assembly from drain pipe.
2. Place gasket onto drain flange, clear silicone sealant may be used in place of gasket. Place the drain flange in sink hole.
3. From underside of sink, place additional gasket onto flange and secure with flange nut.
4. Attach flange to existing tailpiece drain pipes with slip nut and washer provided.
5. Test seal by running water and make adjustments as required.
