Material Safety Data Sheet

May be used to comply with OSHA's Hazard Communication Standard, 29 CFR 1910.1200. Standard must be consulted for specific requirements.

U.S. Department of Labor

Adapted

Occupational Safety and Health Administration from FORM 174, Sept. 1985 (Non-Mandatory Form)

 IDENTITY (As Used on Label and List)
 Note: Blank spaces are not permitted. If any item is not applicable, or no information is available, the space must be marked to indicate that.

Section I - Manufacturer & Distributor Information

Manufacturer's Name	Emergency Telephone Number
Imolagres	9011 39 0546 653208
Address (Number, Street, City, State, Country and Postal Code)	Telephone Number For Information
Imolagres	9011 39 0546 653208
Via Emilia Ponente 2070	Date Prepared
Castlebolognese (RA)	11/1/2005
Italy, 48014	Signature Of Preparer (Optional)
Distributor's Name	Distributor's Telephone Number
Dal-Tile Company	(800) 933-8453

Section II - Hazard Ingredients/Identity Information

Hazardous Components (Specific Chemical Identity; Common Name(s))	CAS Number	Concentration (%)	OSHA PEL (mg/m3)	ACGIH TLV (mg/m3)	Other Limits Recommended
1 Crystalline Silica (Quartz)	7631-86-9	< .5%	10/%SiO2 +2	0.05	
2 Amorphous Silica (fused)	60676-86-0	62-71	80/%SiO2	0.1	

Section III - Physical/Chemical Characteristics

Boiling Point (Specify °F or °C)	not applicable	Specific Gravity $(H_2 O = 1)$	1.75 - 2.93	
Vapor Pressure (mm Hg.)	not applicable	Melting Point	> 2000 °F	
Vapor Density (AIR = 1)	not applicable	Evaporation Rate (Butyl Acetate = 1)	not applicable	
Solubility In Water	•	Appearance And Odor	•	
Insoluble		Brittle solid; color may vary and Odorless		

Section IV - Fire and Explosion Hazard Data

Flash Point (Include Method Used To Determine)		LEL	UEL
not applicable	Flammable Limits	not applicable	not applicable
Extinguishing Media	-		•
None required. Non-flammable.			
Special Fire Fighting Procedures			
None required.			
Unusual Fire And Explosion Hazards			
None required.			

O+D15

Section V - Reactivity Data

Unstable	not applicable	Conditions To Avoic
Stable	Stable in current form.	Avoid contact with acids (e.g., acetic, hydrofluoric, etc.)
Incompatibility (Materials To Avoid)		•
Avoid contact with acids (e.g., acetic, hydro	fluoric, etc.)	
Hazardous Decomposition Or Byproducts		
Under normal conditions these products do	not release hazard	lous materials after installation.
Hazardous Polymerization May Occu	not applicable	Conditions To Avoic
Hazardous Polymerization Will Not Occu	Will not occur	Not applicable

Section VI - Health Hazard Data

Route(s) Of Entry:	Inhalation	Yes	Skin?	Yes	Ingestion?	<u>No</u>
Health Hazards (Acute and Chronic)						
Acute - Excessive exposure to tile dust ca for intact tile.	an cause eye, skin,	, and lung	g irritation from m	echanical abras	sion. Ingestion is I	not applicable
Chronic - Not applicable for intact tiles. E exposure to silica dusts can lead to silico	•	e to tile d	lust can cause dis	comfort and me	echanical irritation	. Long term
Carcinogenicity - Respirable crystalline s carcinogen. Intact tile is not believed to b installation, disposal, and/or if damaged. suspected human carcinogen; however, fi	e hazardous and li Crystalline silica is	mited po s describ	tential of exposur ed in ACGIH and I	e exists for crys	stalline silica (quar identified in other	tz) during
Carcinogenicity:	NTP?	<u>Yes</u>	IARC Monographs?	Yes	OSHA Regulated?	Yes
Signs And Symptoms Of Exposure	-+				<u> </u>	
Existing lung disease my be aggravated a Emergency And First Aid Procedures Skin: Wash dust off any affected area with Inhalation: Remove the victim to fresh air has stopped. Keep victim at rest. Call for Ingestion: Not applicable for intact tiles. * Have emergency eyewash station availa	after exposure to ti h soap and water. if exposed to large prompt medical at ble in area where t	e amount ttention. iles are c	ts of tile cutting du	ust. Administer	artificial respiratio	on if breathin

Respiratory Protection (Specify Type)

Tiles should be cut using wet-saw methods. Use of a properly fitted NIOSH/MSHA approved particulate respirator is recommended when cutting tiles dry.

Ventilation:

Use adequate ventilation to keep exposure to dust below recommended exposure levels. Avoid inhaling dust. The highest probability of silica exposure occurs during dry cutting. Wet cutting methods are recommended.

Eye Protection:

Use dust-proof goggles or safety glasses with side shields. Contact lenses may absorb irritants. Do not wear contact lenses in work areas.

Skin Protection:

Cotton or leather work gloves should be worn when cutting this product to minimize skin exposure. Wash hands prior to eating drinking, or smoking, and at the end of the work shift, after cutting operations are conducted.

Other Protective Clothing or Equipment:

Note: Personal protection information listed above is based upon general information as to normal uses and conditions. Where special or unusual uses or conditions exist, it is suggested that the expert assistance of an industrial hygienist or other qualified professional be sought.

Section VIIII - Regulatory Section

Title 22 Division 2, California Code of Regulation Chapter & Proposition 65) This product contains a chemical or chemicals known to the State of California to cause cancer and/or birth defects or other reproductive harm. SARA Reporting This tile contains < 0.1 percent by weight each of the following elements which are SARA 313 Recordable: Antimony, Arsenic, Barium, Beryllium, Cadmium, Cobalt, Chromium, Mercury, Manganese, Nickel, Lead, Silver, Thallium, Vanadium, and Zinc. Department of Transportation (DOT) Regulations Tile is not regulated by DOT. Toxic Substance Control Act (TSCA) This product and/or its components have been introduced into U.S. commerce and is listed in the Toxic Substance Control Act (TSCA) Inventory of Chemicals in Commerce. Hence, it is subject to all applicable provisions and restrictions under TSCA 40 CFR Section 721 and 723.250.
