FRIGIDAIRE

Slide-In Ranges

FFGS3025L S/W/B

Signature Features

Ready-Select® Controls

Easily select options or control cooking temperature with our easy-to-use controls.

Large Capacity

Our large capacity oven gives you room to cook more at once.

Continuous Cast Iron Grates

Continuous Grates make it easy to move heavy pots and pans between burners without lifting.

One-Touch Self Clean

Start the self-cleaning cycle with just the touch of a button.

30" Gas

Product Dimensions

 Height (Max.)
 36-5/8"

 Width
 30"

 Depth
 28-5/16"

More Easy-To-Use Features

Sealed Gas Burners

Enjoy easier cleanup and a burner that stays looking great.

Black Matte Finish with Cast Iron Grates

A premium finish to complement the durable burner grates.

Quick Boil

Boil water faster with our 15,000 BTU burner.

Low Simmer Burner

Perfect for delicate foods and sauces.

Even Baking Technology

Our latest technology ensures even baking every time.

Store-More™ Storage Drawer

Our convenient drawer gives you extra storage space in your kitchen.

Quick Clean

For a quick, light oven cleaning.

Attractive Stainless Steel Exterior¹

LP Gas Conversion Option

A.D.A. Compliant

When properly installed, this model is A.D.A.-qualified based on the United States Access Board's A.D.A./A.B.A. Accessibility Guidelines and the Department of Justice's 2010 A.D.A. Standards for Accessible Design.

Sabbath Mode (Star-K* Certified)

Available in:

Stainless White Black
(S) (W) (B)

Burners	BTU
Right Front	15,000
Right Rear	5,000
Left Front	9,500
Left Rear	9,500

Depth (Min.)	21-3/4"
(Max.)	22-1/8" **

^{*}Cutout and countertop cutout width should match.

¹When properly installed, this model is A.D.A.-qualified based on the United States Access Board's A.D.A./A.B.A. Accessibility Guidelines and the Department of Justice's 2010 A.D.A. Standards for Accessible Design.

²For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.

Accessories information available on the web at **frigidaire.com**

FRIGIDAIRE.

^{**24&}quot; with optional backguard installed.

FFGS3025L S/W/B 30" Gas

Slide-In Range Specifications

- Product Shipping Weight (approx.) 250 Lbs.
- Voltage Rating 120V/60 Hz/15 Amps
- Connected Load (kW Rating) @ 120 Volts = 0.7 kW (For use on adequately wired 120V, dedicated circuit having 2-wire service with a separate ground wire. Appliance must be grounded for safe operation.)
- Amps @ 120V = 6 Amps
- · Always consult local and national electric and gas codes.
- Make sure wall coverings around range can withstand heat generated by range.
- Linoleum or any other synthetic floor covering located beneath range, must be capable of withstanding minimum heat of 90° F above room temperature without shrinking, warping or discoloring. Insulating pad or 1/4"-thick plywood required between range and a carpeted floor.
- Do not obstruct flow of combustion air at oven vent nor around base or beneath lower front panel of range. Range requires fresh air for proper burner combustion.
- Range ships with 3/4" factory regulator.
- LP Gas Conversion Kit supplied.
- Gas supply piping can be through back wall or floor. Optimum location is between 1" and 8" from floor through back wall within 3" of center line; can also be through floor against back wall within 12" of center line. Supply line must be equipped with approved manual shutoff valve, accessibly located in same room as range.
- Countertop MUST be level in all directions and adjustable range height at least 1/16" greater than tallest cabinet height, to ensure metal rangetop flange will fit properly on countertop edge.
- When installing optional Backguard Kit, cutout depth of 21-3/4" minimum/22-1/8" maximum needs increased to 24".
- Overhead cabinetry should not exceed a 13" maximum depth.
- Absolute minimum horizontal distance between overhead cabinets installed to either side of appliance must be no less than maximum width of appliance.

- Allow 24" minimum clearance between rangetop and bottom of cabinet when bottom of wood or metal cabinet is protected by not less than 1/4" flame-retardant millboard covered with not less than No. 28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper. Allow 30" minimum clearance when cabinet is unprotected.
- Allow 5" minimum clearance from edge of rangetop to nearest combustible wall on either side of unit.
- To reduce risk of fire when using overhead cabinetry, install range hood that projects horizontally a recommended minimum of 5" beyond bottom of cabinets.

Countertop Preparation

Rangetop's side flanges overlap countertop cutout edges – for detailed preparation instructions, refer to product installation guide on the web.

- Flat Square-Finish Countertops require no preparation since rangetop's flange lays directly on countertop edge.
- Formed Front-Edged Countertops require front molded edge to be shaved flat 3/4" from each front corner of opening.
- \bullet Tile Countertops may need trim cut back $3/4^{\prime\prime}$ from each front corner of opening and/or rounded edge flattened.
- For existing cutout width greater than 30-1/16" reduce the 3/4" overlap dimension; for cutout width of 29", replace actual side trim panels with smaller side trim panels, available with optional Side Trim Kit (refer to detailed kit installation instructions).

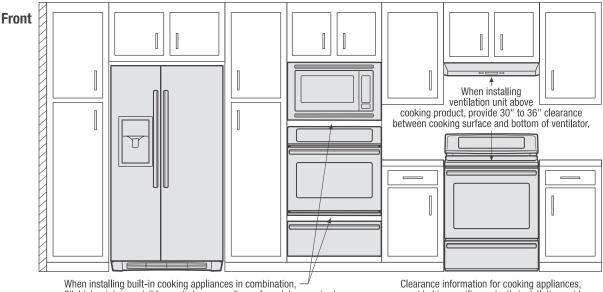

Note: For planning purposes only. Refer to Product Installation Guide on the web at frigidaire.com for detailed instructions.

Optional Accessories

- Rear Filler Kit: White (PN# 901193-9011), Black (PN# 901193-9010).
- Side Panel Kit: White (PN# 903074-9011), Black (PN# 903074-9010).
- Backguard Kit: White (PN# 903046-9011), Black (PN# 903046-9010).
- Side Trim Kit: White (PN# 903075-9011), Black (PN# 903075-9010).

FRIGIDAIRE.

2"-high minimum visible gap between appliance faceplates required.

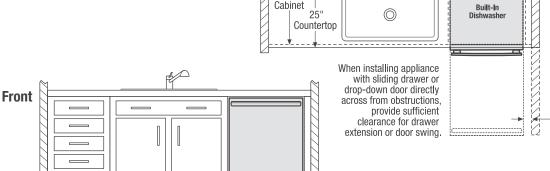

provided in specific product's installation guide.

*When installing side-by-side refrigerator adjacent to wall, cabinet or another appliance that extends beyond front edge of unit, 20" minimum clearance recommended to allow for optimum 120° to 180° door swing, providing complete drawer/crisper access and removal. (Absolute 4-1/2" minimum clearance will ONLY allow for 90° door swing which will provide limited drawer/crisper access with restricted removal.)

When installing appliance with sliding drawer, swinging or drop-down door directly across from obstructions, provide sufficient clearance for drawer extension or door swings.
