

## Home Comfort

FFTH0822Q1

### Through-The-Wall Air Conditioner/Heater

### Signature Features

#### Effortless™ Temperature Control

Our air conditioners maintain the preset room temperature, so you will remain comfortable at all times.

#### Programmable 24-Hour On/Off Timer

With the 24-Hour On/Off Timer, you can ensure your home will be cool and comfortable when you want it to be without having to worry about running up your utility bills. The built-in timer allows you to preset the unit to turn on and off in half-hour increments.

#### Energy Saver Mode

Reduce your utility bills in this mode. It cools similarly to central air, with the unit turning on and off at different intervals to ensure the room temperature stays at the set temperature.

#### Multi-Speed Fan

Features three different fan speeds, for more cooling flexibility.

#### Product Dimensions

|        |         |
|--------|---------|
| Height | 14-1/2" |
| Width  | 24"     |
| Depth  | 20-1/2" |

#### More Easy-To-Use Features

##### Supplemental Heating Option

With our supplemental heating capability, you can be comfortable regardless of the temperature outside — you have both heating and cooling solutions!

##### Sleep Mode

With Sleep Mode, the temperature gradually increases a few degrees over the evening, saving energy and creating a comfortable environment during the evening hours.

##### Remote Control

Offers you the flexibility to control the temperature and fan speed from anywhere in the room.

##### Effortless™ Clean Filter

Our antibacterial filter reduces bacteria, room odors and other airborne particles for a healthier, more comfortable environment.

##### Power Cord

Comes with an extra long three-prong cord — makes extension cords unnecessary.

##### Effortless™ Restart

Automatically resumes operating at its previous settings when power is restored to your unit.

##### Clean Filter Alert

Alert notifies you when your filter needs to be cleaned so you don't have to keep track of it yourself.

##### Ready-Select® Controls

Easily select options with the touch of a button.

Through-The-Wall Installation

Through-The-Wall 18" Sleeve Kit (PN# EA108T)

Home Comfort Specifications

- Product Shipping Weight (approx.) - 74 Lbs.
- An electrical supply with grounded three-prong receptacle is required. The power supply circuit must be installed in accordance with current edition of National Electrical Code (ANSI/NFPA 70) and local codes & ordinances.
- Voltage Rating - 115V/60 Hz/15 Amps
- Amps @ 115 Volts = (Cool) 8 Amps/(Heat) 12.0 Amps
- Recommended Circuit Breaker - 15 Amps
- Unit equipped with 115V 3-wire power supply cord, NEMA plug type 5-15P, approximately 72" long.
- Unit's increased performance characteristics result from two rear intakes. For unit to operate at maximum efficiency, carefully follow complete, detailed new or replacement installation instructions provided in Product Installation Guide on web.
- Unit requires rearward slope when installation is complete, to allow condensate to drain from rear of sleeve.

New Installation

- For new installation, Frigidaire® Through-The-Wall 18" Sleeve Kit PN#EA108T available. Recommended for proper installation.
- Through-the-wall installation requires 18" maximum wall thickness.
- For energy-saving purposes, install unit in shady location, preferably a northern exposure; and do not block airflow inside with blinds, curtains or furniture; or outside with shrubs, enclosures or other buildings.

Replacement Installation

- When replacing existing air conditioner with new unit, refer to Product Installation Guide on web to identify existing wall-sleeve manufacturer and size compatibility. If proper installation and slope are suspect, then correct installation of Frigidaire® Through-The-Wall 18" Sleeve Kit PN# EA108T recommended.
- Use of existing wall sleeve to mount new unit requires original sleeve be in sound structural condition with rear grille that attaches securely, or rear flange that serves as stop for unit.
- Preferable installation option, for increased efficiency and possibility of drafts reduced, requires existing rear grille (*mounted to sleeve*) be replaced with new unit's rear air-directional louvered grille (*provided in accessory kit, shipped with unit*). Non-preferable installation option of directly mounting rear louvered grille to unit can be considered, requiring grille be mounted to unit prior to sleeve installation.
- Existing decorative exterior grille may be left in place, provided that proper air-directional rear louvered grille is installed.
- For installation into larger existing sleeve, optional Trim Kit PN# EA120T available.

**Note:** For planning purposes only. Refer to Product Installation Guide on the web at [frigidaire.com](http://frigidaire.com) for detailed instructions.

Optional Accessories

- Through-The-Wall 18" Sleeve Kit - (PN# EA108T).
- Trim Kit (*for larger existing sleeve*) - (PN# EA120T).
- Architectural-Style Exterior Louvered Grille - (PN# EA109T).
