## Installation

Connect your Hub to the internet and a power outlet using the cables provided. Avoid switched outlets or filtered power strips.

## Download the App

From your mobile device, download and install **INSTEON for Hub** from the Apple App Store, Amazon App Store or Google Play.

## Create an Account

Launch the App and follow the on-screen instructions to create an account and setup the INSTEON Hub.

You're done setting up your INSTEON Hub; now start adding devices.

## Adding Devices

You can add devices by tapping the Add button found under All Devices within Rooms. Select your device type from the list and follow the on-screen instructions.

You can also add devices from Devices under Edit Settings.

## Create a Scene

Control a single light or a group of devices simultaneously. Visit Scenes and then tap Add.

## Trigger a Scene

Sensors can activate scenes. To setup a trigger, simply add a sensor to a scene.

## Create a Schedule

Assign a schedule to individual devices or scenes. Go to the device or scene properties and tap Schedule.

## Configure Alerts

Receive an email alert when a sensor or device is activated. Enable alerts by visiting the device properties and tapping Alerts.

## Remote Access

You can monitor and control your devices when away if you setup Remote Access. Go to Settings > House > Remote Access Guide to configure port forwarding.
