2013 POWER PRODUCTS

WHEN TIMES ARE TOUGH, YOU NEED EQUIPMENT THAT'S TOUGHER.

Kawasaki's 2013 handhelds are built

strong, simple and durable, to get the

job done as efficiently as possible.

Authentic 2-cycle engines run on

87-octane pump gas, to stretch your

fuel budget a little further. Optimal

equipment weight, balance and

ergonomics make long hours a little

easier to handle. Service is simple,

to cut downtime and expense. Every

part of every machine is built to work

a little smarter, a little longer. These

days, that's what it takes. With this

gear, that's what you've got.

CRITICAL POWER

Kawasaki is committed to delivering all the performance you expect. That means accurate, certified 4-cycle engine horsepower. Optimum 2-cycle torque and efficiency. And fuel-saving, clean-running operation. From handheld products to powering high-capacity mowers, when you've got a Kawasaki engine on your equipment, you're doing the job right.

2-3 TOUGHER THAN THE TIMES

Kawasaki
Power Products

YOU STAND BY THESE MACHINES BECAUSE THEY STAND UP TO ANYTHING.

In turf work, dabblers and part-timers quickly get weeded out.

Same with turf equipment. The stuff that lasts is built around

strictly pro-grade materials, sturdy bearings and

gears, big filters and smart controls, matched

to a rugged Kawasaki 2-cycle engine

with strong, simple moving

parts, easy starting,

superior power-to-weight,

and the highest durability

rating available. It also helps to have the simplest fuel requirement

possible: 87-octane pump gas and Kawasaki oil, mixed to the

same ratio in every Kawasaki handheld. Try the

good stuff for yourself: work with any

Kawasaki Power Product for

10 days, risk-free. If you're

like a lot of pros, you will

never give it up. Because

it will never let you down.

Kawasaki
Power Products

YOU KNOW A WORKMAN BY HIS TOOLS. THIS GUY IS GOOD.

STRING TRIMMERS

This is the trimmer that does a professional proud: awesome Kawasaki power on one end, killer cutter head on the other, with the best balance, weight and vibration control you can get in between. It feels good in the hands and gets the job done in less time than it takes to brag about it. For comfort and productivity, no disposable one-season trimmer can touch it.

- True 2-cycle engine equipped with ball bearing supported cast-iron crankshaft, chrome cylinder walls, two-ring piston, vibration-damping system
- Clutch-equipped, with lined clutch shoes for smooth engagement, less heat
- Barrel style carburetor for consistent fuel/oil delivery
- Weighted fuel filter with large fuel tank for angled operation and extra run time
- Digital ignition system, purge primer, throttle enrichment for easy starting and optimum performance
- Large felt air filter for increased engine life

Kawasaki
Power Products

STRING TRIMMERS

KTFR27

- 26.3cc commercial-grade two cycle engine with highest EDP rating available
- Purge primer, throttle enrichment for quick and easy starts
- Aluminum clutch housing with ball bearings for strength and durability
- Two-shoe semi-metallic lined clutch for smooth operation
- Multi-layer steel drive shaft
- Rubber overmolded lower loop handle for increased durability and comfort
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KTF27

- 26.3cc commercial-grade two cycle engine with highest EDP rating available
- Purge primer, throttle enrichment for quick and easy starts
- Multi-layer steel drive shaft
- 4 bearing heavy-duty gear case
- High torque gearhead
- Rubber overmolded lower loop handle for increased durability and comfort
- Heavy-duty streamlined trimmer guard
- Large capacity "Bump and Feed" cutter head
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KGT27

- 26.3cc commercial-grade two cycle engine with highest EDP rating available
- Purge primer, throttle enrichment for quick and easy starts
- Polymer clutch housing with bearings for reduced vibration, cooler operation
- Solid steel drive shaft for smooth operation and less fatigue
- High torque gearhead
- Accepts bicycle handle bar kit
- Larger rubber overmolded lower handle for increased comfort
- Shoulder strap swivel
- Accepts Twin Turbo Blade and Fixed and Articulating hedge clipper attachments
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KBL27

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating available
- Purge primer, throttle enrichment for quick and easy starts
- Solid steel drive shaft for smooth operation, less fatigue
- Barrier bar on handle for added safety
- Large rubber overmold lower handle for reduced vibration
- High torque gearhead
- Blade ready: Comes with high capacity "Bump and Feed" trimmer head plus blade hardware (blade not included)
- Tool-free conversion from the trimmer shield to blade shield
- Accepts multiple attachments: Twin Turbo Blade, fixed and articulating hedge clipper attachments
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KGT35

- Large 34.4cc commercial-grade 2-cycle engine with highest EDP rating available
- Larger clutch and drum for positive engagement and increased clutch life
- Large rubber overmold lower handle for reduced vibration
- High torque gearhead
- Solid steel drive shaft for smooth operation, less fatigue
- BL unit is blade ready and comes with a high capacity "Bump and Feed" trimmer head
- Tool free conversion from trimmer shield to blade shield
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended
- Accepts bicycle handle bar kit

KBL35

- Large 34.4cc commercial-grade 2-cycle engine with highest EDP rating available
- Larger clutch and drum for positive engagement and increased clutch life
- Large rubber overmold lower handle for reduced vibration
- High torque gearhead
- Solid steel drive shaft for smooth operation, less fatigue
- BL unit is blade ready and comes with a high capacity "Bump and Feed" trimmer head
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended
- Accepts bicycle handle bar kit

Kawasaki
Power Products

THERE'S A FINE LINE BETWEEN GOOD WORK AND GREAT WORK.

EDGER

- 26.3cc commercial-grade 2-cycle engine w/ highest EDP rating available
- Easy Pull starter reduction system
- Purge primer and throttle enrichment lever for quick, easy starting
- Poly clutch housing with bearings for reduced vibration, cooler operation
- Vibration reduction lower handle with foam overlay for operator comfort
- One-touch cutter adjustment for easy change of cutting depth
- Gear reduction gear case for increased power to blade
- Curved shaft provides clear sight of cutting area, directs debris away from operator
- Gear case glide prevents wear and damage to gear case, reduces effort on uneven surfaces
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

The Kawasaki professional edger cuts a crisper, cleaner edge wherever grass meets sidewalks, borders, curbs, or other landscaping. Low noise and damped vibration, smooth operation, clear line of sight, and high-quality commercial-grade blade provide the easiest, most impressive finish possible. Making both you and your work look good.

IT'S NOT JUST A JOB. YOU'RE CARVING A REPUTATION.

HEDGE TRIMMERS & CLIPPERS

A well-trimmed hedge is a clear example of your skill, and a billboard for your business. Kawasaki helps you make the most of it with the lightest, most powerful trimmers we can engineer. With their robust two-cycle engines and chrome-plated blades, they'll cut, trim and shape faster, cleaner and easier. Now results that boost your business – not to mention your pride – are easier to achieve.

- Lightweight, low noise, minimum vibration for easier handling, accurate cutting of thin and thick foliage
- Chrome-plated blades available, for up to five times more work hours before the first sharpening
- Ergonomic, heat-shrouded design for operator comfort
- Hedge trimmers: 24-inch to 44-inch models
- Hedge clippers: 5.5-foot to 6.9-foot overall lengths, articulating or fixed blades

Kawasaki

HEDGE TRIMMERS

KHDS600

- 22.5cc commercial-grade 2-cycle engine with highest EDP rating available
- 24" blade with chrome plating for increased blade durability and longer time before first sharpening
- Dual reciprocating blades diamond-honed for precision cutting
- Full bearing gearbox for long life and increased performance
- Extra strength blade stiffener for precise cutting
- Deluxe rotating handle for multiple cutting positions and increased operator comfort
- Easy to grease gear box
- Aluminum safety guard for increased operator safety
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KHDS750

- 22.5cc commercial-grade 2-cycle engine w / highest EDP rating available
- 30" blade with Chrome plating for increased blade durability and longer time before first sharpening
- Dual reciprocating blades diamond honed for precision cutting
- Full bearing gearbox for long life and increased performance
- Heavy-duty blade stiffener for precise cutting
- Deluxe rotating handle for multiple cutting positions and increased operator comfort
- Easy to grease gear box
- Aluminum safety guard for increased operator safety
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KHSS750

- 22.5cc commercial-grade 2-cycle engine with highest EDP rating available
- 30" blade with chrome plating for increased blade durability and longer time between sharpenings
- Dual reciprocating blades diamond-honed for precision cutting
- Full bearing gearbox for long life and increased performance
- Heavy-duty blade stiffener for precise cutting
- Vibration reduction dampers for increased operator comfort, less fatigue
- Leaf catcher option available, p/n 99995-6154
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KHSS1100

- 22.5cc commercial-grade 2-cycle engine w/highest EDP rating available
- 44" blade with chrome plating for increased blade durability and longer time between sharpenings
- Dual reciprocating blades diamond-honed for precision cutting
- Full bearing gearbox for long life and increased performance
- Heavy-duty blade stiffener for precise cutting
- Vibration reduction dampers for increased operator comfort, less fatigue
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

HEDGE CLIPPERS

KCS600

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating available
- 65.2" overall length
- Easy pull starter reduction system
- Purge primer and throttle enrichment for quick, easy starting
- Polymer clutch housing with bearings for reduced vibration cooler operation
- Vibration reduction lower handle with foam overlay for operator comfort
- Additional foam over shaft for increased mobility, comfort and less vibration
- 21" blade with chrome plating for increased blade durability and longer time before first sharpening
- Dual reciprocating blades diamond-honed for precision cutting
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KCL600

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating available
- 79.3" overall length
- Easy pull starter reduction system
- Purge primer and throttle enrichment for quick, easy starting
- Poly clutch housing with bearings for reduced vibration, cooler operation
- Vibration reduction lower handle with foam overlay for operator comfort
- Additional foam over shaft for increased mobility, comfort and less vibration
- 21" blade with chrome plating for increased blade durability and longer time between sharpenings
- Dual reciprocating blades diamond-honed for precision cutting
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KCS525

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating available
- 65" overall length
- Easy pull starter reduction system
- Purge primer and throttle enrichment for quick, easy starting
- Polymer clutch housing with bearings for reduced vibration, cooler operation
- Vibration reduction lower handle with foam overlay for operator comfort
- Additional foam over shaft for increased mobility, comfort and less vibration
- 20.7" blade with chrome plating for increased blade durability and longer time between sharpenings
- Dual reciprocating blades diamond-honed for precision cutting
- Cutter blade bar has 180 degrees of rotation for multiple cutting angles, folds against tube for transport/storage
- Easy to grease gear case
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KCL525

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating available
- 77" overall length
- Easy pull starter reduction system
- Purge primer and throttle enrichment for quick, easy starting
- Polymer clutch housing with bearings for reduced vibration, cooler operation
- Vibration reduction lower handle with foam overlay for operator comfort
- Additional foam over shaft for increased mobility, comfort and less vibration
- 20.7" blade with chrome plating for increased blade durability and longer time between sharpenings

Kawasaki
Power Products

BECAUSE YOU NEVER KNOW WHAT TASKS WILL COME UP.

MULTI-TASK POWER SERIES

- 26.3cc commercial-grade 2-cycle engine with highest EDP rating
- Starter reduction system with purge primer and throttle enrichment for quick, easy starting
- Poly clutch housing with bearings for reduced vibration, cooler operation
- Heavy-duty shaft or cable drive for smooth operation and less fatigue
- Heavy-duty coupler with locking pin for positive connection to attachment
- Vibration-reduction lower handle

The Multi-Task Power Series easily switches from trimmer to edger to limb pruner and more, quickly taking on whatever chores you have to handle. That means less time running after equipment, more time on task, more jobs done, and more money made. With nine different attachments, you're pretty much equipped to handle anything. As every professional knows, that's what real productivity is all about.

Kawasaki
Power Products

FROM CHAOS TO CONTROL IN JUST MOMENTS.

BACKPACK BLOWERS

One moment a pile of leaves, clippings and debris. The next, a spotless walkway, drive or patio. Kawasaki blowers do that job more comfortably, completely and quietly than ever, with a balance of thrust and control that only comes from ergonomic engineering, unmatched engines, and a relentless drive to do the job better than it's been done before.

- Exceptional power-to-weight ratio for high output
- Proven commercial-grade 2-cycle engine with the highest EDP rating available
- Noise-minimizing design, including composite engine shroud and fan housing
- Oversized handle, easy-flex hose with locking throttle, and large view-through fuel tank for enhanced portability, operation and productivity

Kawasaki
Power Products

BACKPACK BLOWERS

KRB650B

- Proven 45.4cc commercial-grade 2-cycle engine with highest EDP rating available
- Lightweight 19.1 lbs
- 755 max cfm / 190 mph
- 3 Large vibration dampers for operator comfort and less fatigue
- Cruise control for ease of use and less fatigue
- Strong frame with leaf guard
- Automotive style air filter for increased service intervals and long engine life
- Padded shoulder straps for comfort
- Small diameter tubes for accuracy when blowing in confined areas
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

KRB750A

- Proven 64.7cc commercial-grade 2-cycle engine with highest EDP rating available
- Available in either hip mount throttle (A), or tube mount throttle (B) configuration
- Lightweight 20.7 lbs
- 800 max cfm / 200 mph
- 3 Large vibration dampers for operator comfort and less fatigue
- Cruise control for ease of use and less fatigue
- Industrial strength frame with leaf guard
- Automotive style air filter for increased service intervals and long engine life
- Padded shoulder straps for comfort
- Small diameter tubes for accuracy when blowing in confined areas
- Uses standard 87-octane pump fuel. Genuine Kawasaki oil recommended

Fan guard is designed to minimize debris being pulled into the fan.

Large commercial-grade paper air filter is easy to maintain.

THROTTLE TYPE	Grip with Throttle Lock
A/F TECHNOLOGY™	Yes

Specifications subject to change.

When you don't need the all-out clout of a backpack blower, count on this for help.

The famed TJ27E engine is powerful and easy to start, with a vibration-damped handle for smoother operation. High-volume airflow clears smaller areas far more efficiently than rakes, brooms or electric handhelds. The user-friendly design, trimmed to the lightest

effective weight, makes the task easier on back, shoulders and arms. And with the optional

vacuum attachment, the blower quickly converts to a handy vac that shreds and collects debris.

With the optional vacuum attachment, the blower quickly converts to a portable power-vac that shreds and collects debris in no time. See page 31 for details.

Throttle lock keeps the throttle engaged automatically, and cuts down on operator fatigue.

Kawasaki exclusive design keeps clothing from interfering with the intake fan.

Commercial-grade air filter design makes for superior air filtration.

Kawasaki
Power Products

YOU'RE THE REAL DEAL. MAKE SURE YOUR EQUIPMENT IS.

GENUINE PARTS & ACCESSORIES

Keep your gear performing up to your standard with genuine Kawasaki accessories. They're specifically engineered to make your tools as versatile, efficient and productive as possible. And Kawasaki service and replacement parts, like KTechblend™ 2-cycle FD Certified oil and premium trimmer line, will keep your machines running at peak efficiency. With all-Kawasaki equipment you'll get more done, in less time, with less effort and expense. That's what being the real deal is all about.

Hedge Clipper Attachment lets you convert your string trimmer into a hedge trimmer to get at hard to reach spots.

Several blade options let you chop through thick grass and heavy brush.

Twin TurboBlade is a unique design that lets you cut through thick brush quickly and safely — even around trees and posts.

Kawasaki

Power Products

ENGINE DURABILITY PERIOD (EDP)

All Kawasaki Power Products are powered by 2-cycle gasoline engines with a 300 hour durability rating, the highest available for professional handheld equipment. Kawasaki guarantees that these commercial-grade engines will be reliable and emission-compliant for at least 300 hours.

These engines are rated and certified with the EPA and C.A.R.B to the maximum handheld Emission Durability Period (EDP). EDP refers to useful life, defined as “when engine performance deteriorates to the point where usefulness and/or reliability is impacted to a degree sufficient to necessitate overhaul or replacement”. (Code of Federal Regulations, Vol. 40, Chapter 1, Sec. 90.105, par. 5.)
