

INSTALLATION INSTRUCTIONS

Item#P901 (New. 04/18/2013)

READ AND SAVE THESE INSTRUCTIONS

WARNING! SHUT POWER OFF AT FUSE OR CIRCUIT BREAKER.
AVERTISSEMENT! COUPER LE COURANT AU NIVEAU DES FUSIBLES OU DU DISJONCTEUR.

MOUNTING THE FIXTURE (Fig.1)

1. Shut off the power at the circuit breaker and remove old fixture, including the mounting hardware.
2. Carefully unpack your new fixture and lay out all the parts on a clear surface. Take care not to lose any small parts necessary for installation.
3. Attach the Circular Strap (A) to the outlet box in the ceiling with two Screws (C). The side of the Circular Strap marked "GND" must face out.
4. Determine length desired and secure the Rods (E) to Canopy (D) and to the Nipple on the top of Metal Panel (F). Pull fixture wire carefully through each down rod as you assemble.

CONNECTING THE WIRES (Fig. 2)

5. At this point, connect the electrical wire as shown in figure 2, making sure that all wire connectors are secured. If your outlet has a ground wire (green or bare copper), connect the fixtures Ground Wire to it. Otherwise, connect the fixture Ground Wire directly to the Circular Strap using the Green Screw provided.

FINISHING THE INSTALLATION (Fig. 1)

6. After wires are connected, tuck them carefully into the ceiling junction box, then place Canopy (D) over the Circular Strap (A) and secure it against ceiling with Screws (B).
7. Adjust Swivel (G) as shown for installing the bulb and Glass shade.
8. Install 1*75W G9 Xenon bulbs (I) (included) in accordance with the fixture's specifications. **(DO NOT EXCEED THE MAXIMUM WATTAGE RATING!) (NE PAS DEPASSER LA PUISSANCE NOMINALE MAXIMALE!).**
9. Secure the Glass shades (J) over the Socket (H) by turning clockwise. Then push the Swivel (G) back to the center of the Metal Panel (F).
Note: Turn the Screw Shell (K) and Glass Shade (J), so the two holes located on Glass shade are hidden by the Metal Panel (F).

Your installation is now complete. Return power and test the fixture.

Note: Illustration (Fig. 1) on this manual is for installation purposes only. It may or may not be identical to the fixture purchased

IMPORTANT: FIXTURE SHOULD BE INSTALLED BY A QUALIFIED ELECTRICIAN TO ENSURE PROPER WIRING AND INSTALLATION.
