

The PACKA44 cools up to 175 sq. ft. with 350 CFM airflow. The compact size, measuring just 28.9 inches high, makes this unit perfect for cooling tight spaces. The PACKA44 features a low water level alarm and comes with a remote control for easy operation. The 7.5 hour timer allows “pre-cooling” of spaces without leaving the unit on for an extended time. And, with a low 115 watt consumption, the PACKA44 model provides efficient and economical cooling.
