- Fresh Air Filter
- Dual Evaporators
- Linear Compressor for Better Energy, Quiet Operation, and Durability
- Multi-Air Flow
- Electronic Temperature Controls
- Tall Ice & Water Dispenser
- Premium Water Filtration System
- SmartDiagnosis™ System
- Door Alarm
- LoDecibel™ Quiet Operation

BIG SPACE. COOL FEATURES.

With the largest 31 cu. ft. capacity*, this LG Super Capacity refrigerator not only has the features to keep your food fresh, it's got the room to store it all. Smart Cooling Plus technology keeps temperature and humidity right where it's best for your food, and a Fresh Air Filter helps keep the air around your food from getting stale. And with the Smart Pull™ Handle and 3-Tier Organization™ Freezer, keeping everything organized is a breeze.

Super Capacity

With the largest capacity for standard width refrigerator at 31 cu. ft., you can store more food than ever before.*

*Standard width French Door Refrigerator, excludes other LG manufactured products.

Slim SpacePlus™ Ice System

Ice makers are great, but not if it means you can't fit all of your food in the fridge. The Slim SpacePlus™ Ice System provides maximum shelf space and allows even more space for door bins.

Smart Cooling Plus System

Smart Cooling Plus technology maintains optimal humidity and temperature levels so your food stays fresher, longer. Digital sensors constantly monitor conditions within the refrigerator, while the Linear Compressor reacts quickly to keep humidity and temperature at a level that's best to keep your food fresh. Meanwhile, a Fresh Air Filter, Dual Evaporator for freshness and Multi-Air Flow Technology design means strategically-placed vents in every section surround your food with cool, fresh air no matter where you put it.
