HAVE YOUR MICROWAVE, AND OVEN TOO

Sometimes you just don't want to heat up a big oven. That's why we've created the microwave and pizza oven. Its 1400-watt pizza drawer and 1000-watt microwave allow you to cook and bake in the same appliance. Plus, the Auto Pizza Feature automatically adjusts cooking times for fresh or frozen pizzas. So now you don't have to heat up an entire oven, just to cook up a small dinner.

1400 Watt Baking Oven

Allows you to both microwave and bake in one appliance. Cook small items like frozen foods, biscuits and cookies without heating a large oven.

Auto Pizza Feature

Automatically adjusts cooking times for fresh or frozen pizzas.

Child Lockout

Enables you to lock the keypad to prevent the oven from being accidentally started.
