5 burners

Fan Convection Cooking

Signature Features

Available Colors

Large Capacity

Our spacious 5.8 cu. ft. large capacity oven easily handles turkey roasters and large baking sheets.

Convection

The convection fan system is great for baking and broiling because heat is distributed thoroughly and food cooks evenly. Enjoy faster results each time.

Five Burner Cooktop

Cook an entire dinner for your family at once without having to switch out pans. Features: an oval burner for oversized items and a power and simmer burner for quick meals.

NX583G0VBSR

5.8 cu. ft. Freestanding Gas Range with Convection

Installing your Range

* 30" minimum clearance between the top of the cooking surface and the bottom of an unprotected wood or metal cabinet; or 24" minimum when the bottom of the wood or metal cabinet is protected by not less than 1/4" flame retardant millboard covered with not less than no.28 MSG sheet steel, 0.015" stainless steel, 0.024" aluminum or 0.020" copper.

** 15" minimum between the countertop and the adjacent cabinet bottom.

IMPORTANT: To eliminate the risk of burns or fire caused by reaching over heated surface units, cabinet storage space located above the surface units should be avoided. If cabinet storage is to be provided, the risk can be reduced by installing a range hood that projects horizontally a minimum of 5" beyond the bottom of the cabinets.

Dimensions

Power Consumption

53,000 BTU

Power Source

240 V / 60 Hz

Gas Range Cooktop
