

The CO-Series mitigates this concern by allowing you:

- Issue PIN Codes, Fobs or Cards
- Easily add and delete users
- Providing Card + PIN for added security

*“We run two shifts. I need to be able to schedule when employees can and can't access the building.”*

With the CO-200 and CO-250 you can:

- Control who has access where and when
- Set auto lock and unlock schedules
- Program time zones and holidays

CO-250

Ingersoll Rand's Security Technologies sector is a leading global provider of products and services that make environments safe, secure and productive. The sector's market-leading products include electronic and biometric access-control systems; time-and-attendance and personnel scheduling systems; mechanical locks; portable security; door closers, exit devices, architectural hardware, and steel doors and frames; and other technologies and services for global security markets.

## CO-Series

Electronic Locks

You have unique needs.  
We designed the CO-Series to address them.

*“Around here, lost keys and turnover are a big concern.”*

*“Our facility has sensitive areas. I want the ability to review who gained access and when.”*

The CO-200 and CO-250 allow you to:

- Retrieve audit trails from the lock
- Review who requested access and when
- Report on mechanical key usage and battery status

### Introducing the new CO-Series from Schlage.

It gives you the added security and convenience of electronic access control—without the cost or complexity of a networked solution. CO-Series locks offer a range of options to meet your needs.

## Compatible.

The CO-Series was designed to easily integrate into your facility. It can work in conjunction with Schlage and Locknetics electronic locks and offers expanded cylinder, exit device, and credential compatibility.

### Exit Device Compatibility

		Rim	SVR	CVR	Mortise
Von Duprin	98/99	✓	✓	✓	✓
Falcon	25	✓	✓		
Corbin Russwin	5000	✓			
Precision	21	✓			
Yale	7000	✓			
Dorma	9300	✓			
Von Duprin	22/22F	✓	✓		

### Cylinder Compatibility

	Full Size (key-in-lever 6 pin)	FSIC 6 pin	SFIC 6 & 7pin
Schlage	● ▲	● ▲	● ▲
Falcon	● ▲		▲
Sargent		▲	▲
Corbin Russwin		▲	▲
Yale (also includes Medeco & Competitive OEM's)		▲	▲

● = with cylinder ▲ = less cylinder  
Note: See pricebook for specific configurations.

### Credential Compatibility

The CO-Series is compatible with many different brands and credential technologies that include but are not limited to Schlage, XceedID, and more.

For customers with an installed base of iButtons®, a combo proximity keyfob with iButton® option is available to make an easy transition to prox technology.

## CO-Series Electronic Locks from Schlage

In the world of standalone electronic locks, nothing compares to the CO-Series from Schlage. And because CO-Series locks offer a wide variety of options, it's easy to find the right solution for any facility. For openings with a relatively small number of users, we recommend the CO-100. It's an offline keypad programmable lock. For larger applications try the CO-200 or CO-250. They're computer programmable locks that can provide audit trails. They also offer dual credential options (card+PIN) that provide an even greater level of security.

### CLASS

#### CO-100

- Manually programmable
- User rights stored on the lock
- Keypad only

#### CO-200 (shown)

- Computer programmable
- User rights stored on the lock

#### CO-250

- Computer programmable
- User rights stored on the card

### READERS

- Proximity
- Magnetic stripe
- Keypad only
- Proximity plus keypad
- Magnetic stripe plus keypad

### LEVER

Images shown are not to scale.

### CHASSIS

- Cylindrical
- Mortise
- Mortise deadbolt
- Exit Trim

### POWER

- 4 standard off the shelf (AA) batteries

### FUNCTIONS

- Classroom/storeroom
- Privacy
- Office

### FINISH OPTIONS

## Reliable.

When it comes to securing your facility, you can't afford to take chances. CO-Series locks are tested to the highest quality and reliability standards in the industry, including:

- ANSI/BHMA 156.25 Grade 1\*
- UL 294\*
- UL 10C\*
- ADA\*

\*Certifications in process. Will be achieved prior to shipment.

There are industry standards, and then there are Schlage standards. If it has our name on it, you can be sure we put it through more punishment than you ever will.

## Schlage has a rich heritage in security.

For over 90 years we've endeavored to develop a complete line-up of security solutions you can trust. Simply put, we believe everyone deserves peace of mind—every day.
