

BATH COLLECTION

GENERAL PRODUCT INFORMATION:

This product can mount to either a 4" square electrical box with round plaster ring or an octagon electrical box.

CAUTION — RISK OF FIRE

This product requires installation by a qualified electrician. Before installing be sure to read all instructions and **TURN THE POWER TO THE ELECTRICAL BOX OFF.**

Prepare the Fixture for Installation

- 1 Thread in the two thumbscrews into the top of the backplate. Do not fully tighten the thumbscrews.

Install the Mounting Plate

- 1 Make sure the two inner threaded holes on the mounting plate are positioned vertically.

NOTE: For vertical installation the inner threaded holes must be in horizontal position.

- 2 Line up two mounting plate slots with the two electrical box holes.
- 3 Level the mounting plate vertically and secure it to the electrical box with the two short #8-32 screws provided.

Connect the Power

- 1 Turn the power to the electrical box off.
- 2 Make sure that the mounting plate is grounded in accordance with local electrical codes.
- 3 Connect the black fixture wire to the hot power line wire with a wire nut.
- 4 Connect the white fixture wire to the neutral power line wire with a wire nut.
- 5 Properly place all wires into the electrical box.

Install the Backplate

- 1 Line up the two backplate slots with the two mounting plate inner threaded holes.
- 2 Level the backplate horizontally and secure it to the electrical box with the two long #8-32 screws provided.

Install the Lamp

Use Max 14 W type T5 Linear fluorescent lamp.

- 1 Line up the lamp pins on both sides with the opening on the sockets.
- 2 Insert the pins all the way into the sockets and turn the lamp to lock it in place. Repeat this step for the other lamp.

Install the Glass Shade

- 1 Place the glass shade into backplate.

- 2 Tighten the two thumb screws on the top of the backplate.
