

Invisia™ Towel Bar

with Integrated Support Rail

Technical Data Sheet

Product Specification

The product shall be a combination towel holder and grab rail. The product shall have patented discreet wall mounts that conceal the mounting hardware. There shall be three points of contact between the product and the wall. The product shall be of full metal construction. The grab rail portion of the product shall be 1.25"/3.2 cm in diameter. The product shall have a spacing of 16"/41 cm between the farthest wall mounts if using INV-TB-16, or 24"/61 cm if using INV-TB-24. The product shall be suitable for use in a wet environment. The product shall have a weight capacity in excess of 500lbs / 227kg. Product shall comply with ADAAG 4.26.3 specifying the structural strength of grab bars, tubs and shower seats. The grab rail shall be HealthCraft Products model INV-TB-____ (see table below for appropriate product code).
