

Product Information

Applicable product:	
3/4" thermostatic mixer - less volume control	K-2975-KS
Required accessories:	
1/2" volume control valve - for use on bath and shower outlets	K-2974-K
3/4" volume control valve - for use on bath and shower outlets	K-2977-K
Optional accessories:	
Twin ell - for use with diverter bath spouts only	K-9663

Installation Notes

Install this product according to the installation guide.

The K-2975-KS thermostatic mixer valve requires a separate volume control valve, K-2974-K or K-2977-K, for each bath and/or shower outlet.

For bath-only or shower-only installations, an NPT plug must be installed in any unused outlet.

The lower port of the thermostatic mixer is intended for use with a bath spout only. If a bath spout is not used with this product, the lower port must be plugged.

For installations with a diverter spout, a twin ell, K-9663, is required between the valve and the spout. It is acceptable for the supply to the K-9663 twin ell to run from the top or bottom port through the volume control valve if the remaining unused port is plugged.

NOTE: Stops are integral to the assembly.
