| Optional accessories:  |           |
| Twin ell - for use with diverter bath spouts only              | K-9663    |

### Installation Notes

Install this product according to the installation guide.

The K-2972-KS thermostatic mixer valve requires a separate volume control valve, K-2974-K, for each bath and/or shower outlet.

For bath-only installations, valve may be installed upside down.

For installations with a diverter spout, a twin ell, K-9663, is required between the valve and the spout. It is acceptable for the supply to the K-9663 twin ell to run from the top port through the volume control valve.

**NOTE:** Stops are integral to the assembly.
