Specifications: Designed for residential, commercial or industrial use with water, oil or gas. Designed by Webstone for the PRO-PAL® series of valves, this approved Webstone valve saves time and money when installed in any system that requires a drain. Ideal for use directly after a water meter to isolate a home and purge the system. The valve is actuated by a blowout proof stem and features an adjustable packing nut. Solder joint temperature ratings are per ASME B16.18 Annex A for 95-5 solder. Other solder materials have lower pressure/temperature limits. Do not silver braze or over heat valves when soldering. Threaded ends comply with ANSI B1.20.1.

Quality and Commitment Since 1954
