Part Number:

LEDRA® III

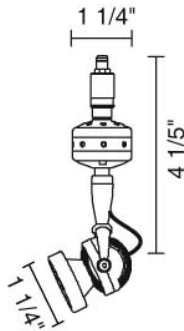

Description:

The Ledra III is a fully adjustable Uni-Light fixture. Integral AC/DC converter allows fixture to work on all Bruck tracks with standard 12VAC transformers. Internal dimming, through integral 32-step switching, controls on each fixture for precise setting. The small size, long life, lack of UV, and cool beam makes the Ledra III ideal for displays, casework, difficult to maintain locations, and applications requiring efficient rich color accents. Can only be used with a magnetic transformer.
