Ordering Example (model – series – finish): QF-196-WT

Product Details

Description:	Low voltage track luminaire with decorative shade options for Quick Connect™ systems. Compatible systems include Solorail™, Flexrail1™, Flexrail2™, Monopoint & Multipoint, 120V Standard Track, and Linear™ system.
Materials:	Machined brass track head containing a ceramic bi-pin socket with silver-plated contacts and heat reducing contact plate.
Lamping:	Uses a bi-pin based MR16G, ordered separately. The QF-196 is suitable for 12v or 24v lamps, 50 watt maximum.
Configuration:	The QF-196 is provided with a standard 3" stem. Order (1) SADP for each QF-196 for LINEAR™ track system
Finish:	Black (BK), Brushed Nickel (BN), Chrome (CH), Platinum (PT) or White (WT) finish.
Listing:	UL & CUL Listed.

Specification Features

- The inner yoke style aiming allows fine 90° vertical adjustment. The track head rotates 350° around its horizontal axis.
- The QF-196 is a low profile QF series track head mounted on an integral 3" stem that blends together with the look of the track head.
- Can use 12 volt or 24 volt lamps, dependant on system transformer.
- 5 year WAC Lighting product warranty.
