

The industry's best ice and water dispensers just got better – now protected by Agion®

Upgrade your older Symphony™ dispenser with Agion-treated components. See reverse for details.

Agion antimicrobial product protection<sup>1</sup> has been added to all major dispenser ice and water contact components to inhibit the growth of damaging microbes on treated surfaces.

- Bin liner
- Bin agitation wheels
- Water reservoir
- Evaporator water feed line
- Molded drain tubing
- Ice and water chutes\*
- Drain pan\*\*

### What is Agion?

Agion is an antimicrobial technology based on elemental silver, reviewed and registered by the EPA, FDA, and NSF. It is proven to inhibit damaging microbes on treated surfaces and is approved for food and water contact.

### How does it work?

Through a controlled release of low levels of silver, Agion silver ions attack multiple targets in a microbe to prevent it from growing to a destructive population. This tri-modal action fights cell growth.

1. Prevents respiration by inhibiting transport functions in the cell wall
2. Inhibits cell division (reproduction)
3. Disrupts cell metabolism

### How effective is silver?

The silver ions in Agion are confirmed effective on many bacteria, yeasts, molds, and fungi.

\* CI and HI models only.

\*\* Not currently available on 110 models.

<sup>1</sup> Disclaimer: Antimicrobial protection is limited to the treated components and does not treat water or ice.

**Agion retrofit parts**  
now available  
for older models  
see reverse for details

Agion antimicrobial product protection of major ice and water contact components is now the standard for all Follett ice and water dispensers. For Symphony CI and HI model ice and water dispensers shipped prior to June 15, 2012 and for all other Symphony dispensers regardless of ship date, Follett offers replacement components and kits that will allow you to upgrade existing dispensers with new Agion-treated components. See the table below to find the appropriate parts for your particular model. You may purchase individual parts, chute kits or comprehensive Agion part kits.

| Agion retrofit parts |   | Compatible with models |              |               |     | List price |
