

HOSHIZAKI

UPRIGHT REFRIGERATION

COMMERCIAL SERIES

Top Mount Refrigeration

Keeps condenser cleaner - away from floors.
No heat rising into cold cabinet area.

Dynamic Ducted Airflow Design

Optimum airflow at each shelf level ensures
cold temperatures and food safety.

TXV Expansion Valve

Regulates refrigeration flow for faster recovery
and efficient operation.

Superior Insulated Walls & Door

Thicker than the competition.
CFC-free foam is environmentally friendly!

All Stainless Cabinet Construction

Stainless steel interior, door liner,
and exterior front and sides.

Roll-In Installation

Our units are shipped with pre-installed
stem casters for easy placement.
(two and three section units)

CR1S-FS
