Durable, Sustainable Construction

1) Superior Refrigeration Performance

Hoshizaki refrigeration creates the perfect combination of temperature and airflow for food storage - we keep your products fresh, nutritious and safe

2) Space Saving Design

Designed with front breathing ventilation our compact units require "zero clearance" at sides and rear

3) Durable, Convenient Door Features

- a) Stainless steel exterior is clean, durable and corrosion resistant
- b) ABS interior liner resists scratches and dents
- c) Exclusive seal saver "stepped" design protects the door gasket
- d) Field reversible doors are easy to convert without a kit
- e) Spring hinge will self-close or stay open at 90° for hands free access

Compact Undercounter Reach-In

A Superior Product - Smaller Footprint

Superior Refrigeration - Refrigeration system operates at optimum efficiency and features ducted air flow, an LED temperature indicator with high/low temperatures and door open alarms. U.L. certified for outdoor use and is NSF approved.

Strong, energy efficient one piece ABS interior liner is easily cleaned. ABS retains cool temperatures and is rust, dent and chip resistant.

Energy Efficient Insulation - Environmentally friendly foam insulation throughout the cabinet and doors provide an energy efficient storage compartment - additional savings for your bottom line.

Convenient and Secure Door Features - Doors are constructed with durable materials - stainless steel exterior; anodized aluminum interior liner providing the protection you require, inside and out. Self-closing door feature keeps cold in... even if you have your hands full.

Sturdy hinge has stay open feature when it's time to load. The door is field reversible and has a cylinder lock with key... for added security!
