## Back Bar

*Underbar Equipment  
 Super Deluxe Series*

**Model : TBB-1SB-N6**

### FEATURES & BENEFITS

#### ■ Hydrocarbon refrigerants (R-600a)

With innovative and eco-friendly technology, Turbo Air brings you hydrocarbon refrigerators designed to meet the new standards of the EPA and DOE in 2017. Hydrocarbon refrigerants do not deplete the ozone layer and have very low contribution to global warming (ODP-0, GWP-3).

#### ■ Forced air cooling system

Fast cooling and balanced temperature throughout the cabinet.

#### ■ Stainless steel countertop and interior

The exterior of the cabinet is constructed with heavy gauge reinforced stainless steel countertop and wear-resistant black vinyl coated galvanized steel. The interior is painted galvanized steel with reinforced stainless steel floor. Turbo Air Back Bar model guarantees the utmost in cleanliness and long product life. It also adds a touch of style to the most refined setting.

#### ■ Ergonomically designed doors

Customers' fatigue fades away with easy grip handles and doors that open effortlessly. These features along with self-closing doors make this the ultimate choice in customer convenience.

#### ■ LED lighting interior

#### ■ Double pane glass doors with Low-E glass (SG Models)

#### ■ High-density polyurethane insulation

The entire cabinet structure is foamed-in-place using high density, CFC free polyurethane insulation.

#### ■ Adjustable, heavy duty, PE (polyethylene) coated wire shelves

#### ■ Side mount compressor unit

With compressors positioned on the side of the unit, our refrigerators can now be serviced without being moved. Our innovative, front breathing feature also allows this model to be highly efficient in narrow spaces.

#### ■ Refrigerator holds 33°F ~ 38°F for the best in beverage preservation
