

Invisia™ Soap Dish

with Integrated Support Rail

Technical Data Sheet

Product Specification

The product shall be a combination soap dish and grab rail. The product shall have patented discreet wall mounts that conceal the mounting hardware. The product shall have a removable solid surface soap tray. There shall be three points of contact between the product and the wall. The grab rail portion of the product shall be 1.25"/3.2 cm in diameter. The product shall be suitable for use in a wet environment. The product shall have a weight capacity in excess of 500lbs / 227kg. Product shall comply with ADAAG 4.26.3 specifying the structural strength of grab bars, tubs and shower seats. The grab rail shall be HealthCraft Products model SD-____ (see table below for appropriate product code).
