

Hunter WITH YOU IN MIND

HERITAGE | HUNTER | CUSTOM BUILDER | PRESTIGE | ACCESSORIES

EACH AND EVERY IMPROVEMENT MADE
WITH YOU IN MIND.

We're never satisfied. Our newest collection not only showcases all the innovative design, quality craftsmanship and unmatched performance you expect from Hunter®. It also features a variety of improvements designed to give our customers better products, more flexibility, easier installation and the best experience possible.

Just how you want it. Most fans include three-position mounting (flush, standard or angled) and can be installed with or without a light kit. Plus, we've designed all of our blades to be interchangeable, allowing you the freedom to switch things up.

Hunter's new hands-free operation makes installation easier than ever. Our patented triangular hanger-ball system reduces torque for maximum stability and unmatched performance. An improved owner's manual puts you in control.

Our latest universal controls come loaded with new innovative features: automatic pairing, secure programming to eliminate interference, auto detect and longer range (up to 75 feet). And it's damp rated for use on covered porches.

Hunter®

IT'S ALWAYS BEEN ALL ABOUT YOU

This year's improvements aren't part of a new strategy. Taking care of our customers has always been our focus. Here are a couple more reasons you should consider purchasing a Hunter® fan.

Lifetime Guarantee

We stand behind the quality and craftsmanship of each and every fan with our Limited Lifetime Motor Warranty. Backed by the only fan company that's been around for over 125 years, it's a guarantee you can trust.

Energy Efficiency

We don't just strive to give you a great value on your fan. We also work hard to create fans that will save you money every month on your electric bill.

We're proud to offer ceiling fans and light kits with the ENERGY STAR® label, which identifies highly efficient products and designates superior energy performance.

To make it more convenient, we've included an informational energy chart for every ceiling fan. Please note that the energy data provided is for fans running at high speed.

36- to 48-inch ceiling fans have airflow efficiencies ranging from approximately 71 to 86 cubic feet per minute per watt at high speed.

49- to 60-inch ceiling fans have airflow efficiencies ranging from approximately 51 to 176 cubic feet per minute per watt at high speed.

HUNTER® TIP
Remember, ceiling fans cool people, not rooms. So turn the fan off when you leave the room to save energy.

FIND THE PERFECT FAN

We want you to be happy. This guide will help ensure you find the Hunter® fan that's just right for you.

1. Determine the fan size that's best for your room.

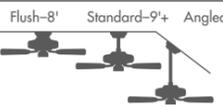

Room Size	Fan Size
Small rooms up to 10' x 10'	30" to 48" fan
Large rooms up to 20' x 20'	50" to 54" fan
Great rooms over 20' x 20'	56" or larger fan

If you're unsure about room dimensions, choose a larger fan to maximize your comfort at low or medium speed.

2. Select a style.

For a coordinated look, match the blade finish to furniture or wood molding. Or, choose a fan body finish that matches door or cabinet hardware.

3. Choose the appropriate fan mount and accessories based on ceiling height.

Low ceilings (8')	Hunter® Low Profile® fans with motor housings that fit flush to the ceiling	
Standard or angled ceilings (up to 9')	Most Hunter® fans with the Installer's Choice® Three-Position Mounting System	
High ceilings (9')	Add an extension downrod, purchased separately	

4. Get the light right.

Choose a fan with a coordinated light fixture, or customize the fan with your choice of accessories.

5. Pick out a fan control.

To operate your fan and light separately from a single switch without additional rewiring	Wall control
For convenient, easy operation in bedrooms and rooms with high ceilings	Wireless remote control

TIMELESS STYLE.

A collection that celebrates the best of more than a century of cutting-edge innovation and craftsmanship. These designs continue to stand the test of time.

18865
60" Midas Black with two Distressed Dark Cherry Basswood blades

1886 LIMITED EDITION®

A true Hunter® masterpiece is reborn with the elegant 1886 Limited Edition®. The intricate sand-cast motor housing and decorative rope downrod sleeve reflect Hunter's enduring attention to detail. A powerful and whisper-quiet Hunter® motor moves two perfectly balanced carved wood blades for exceptional air movement for years to come.

- Furniture grade veneer blades
- 14° blade pitch
- 172 x 20 mm motor
- 12" decorative downrod included for standard/angled mounting
- Limited-edition replica of turn-of-the-century Tuerk fan model
- Detailed cast motor housing rotates with blades
- For use on nine foot or higher ceilings
- Optional controls available (see Accessories section for details)

CLASSIC ORIGINAL®

In the age of disposability, few products have earned the right to be called classics. Rest assured, the Classic Original® is one of them. This is a fan that has changed little in decades, yet is so far ahead of its time, it earns the EPA's Energy Star® Rating.

- Furniture grade veneer blades
- 15° blade pitch
- 210 x 20 mm motor
- Indestructible cast iron housing
- Unique oil bath lubrication system
- Optional controls available (see Accessories section for details)

21894
52" New Bronze with five
Walnut/Cherry blades

ARE YOU A FAN OF YEAR-ROUND COMFORT?

The Westover® Four Seasons™ Heater Fan cools your home when the weather is warm, heats it when winter comes, and looks great the whole year through.

In the summer, use this unique Hunter® fan conventionally, to cut back on air conditioning without sacrificing comfort. When it gets cold, make the switch to heat so you can stay warm even at a lower thermostat setting.

Ideal for adding comfort to a bedroom or family room, the Westover® may also act as the sole means of cooling and heating a space year-round. Either way, this fan is sure to help you save on energy bills all year long. That's a beautiful thing.

Dimensions		Airflow
A:	13.00"	5,005 cfm

EXTENSION DOWNRODS

More homes are being constructed with high ceilings. A Hunter® 3/4" downrod sets the fan at the proper height for optimum performance. All Hunter® extension downrods match Hunter® fans for fit and finish, and have tapered threads for deeper engagement. All downrods are converting to single-threaded construction unless otherwise noted.
