Installation Notes

Install this product according to the installation guide.

Floor support under the whirlpool must provide for a minimum of 80 lbs/square foot (390 kg/square meter) loading.

If installing a rim-mount faucet, make sure there is no interference with the drain overflow and circulating system before drilling any holes. Consult local and national codes for minimum air gap requirements if installing a spout on the faucet deck.

No change in measurements if connected with drain illustrated. (K-11677 or K-11677M)
