

CMA's Wine and Beer Growler Washers and Racks

CMA Hi-Temp Sanitizing Bottle Washer Rack is great for washing and sanitizing all shapes and sizes of bottles. This concept is ideal for "Wine Bottles" and "Growler Bottles" for Micro Breweries. *The racks are fitted with a spray manifold system that places a strategically positioned spray jet inside the neck of each bottle.* This bottle rack is designed for CMA's 180UC and 181GW Hi-Temp Undercounter Dishmachines.

NOTE: Graphics on machine for show only.

The Model 180UC has a maximum dish and bottle clearance of 16", whereas the Model 181GW has 11-1/4"; please consider this when choosing your dishmachine.

(2 In 1) Two Machines In One! Dishwasher and Bottle Washer

The Model 180UC and 181GW dishmachines each have a standard upper and lower spinning wash and rinse arm, when operating as a dishwasher. When converting these models to a Bottle Washer, the lower wash and rinse arms are easily removed.

The standard Bottle Washer Rack has 9 compartments holding up to 6" dia. bottles, and a non-standard 16-compartment rack, accommodating up to 4.5" dia. bottles, both available at an additional cost. Each rack has a standard 20" X 20" footprint, and rack height is determined by the size of the bottle and how many rack extenders are required.

The Bottle Washer Rack comes with wash and rinse adapters that replace the wash/rinse arms. The adapters are fitted with hoses that quickly connect & disconnect to the side of the Bottle Washer Rack for easy and fast removal of the rack. The 180UC and 181GW dish & glasswashing machines can be converted from dish and glasswashing to bottle washing within two minutes.

CMA 181 Glasswasher and Wine Glass Rack

NEW

NOTE:
Graphics on machine
for show only.

The Model 181GW has a maximum dish clearance of 11-1/4", whereas the Model 180UC is available for larger items (dish clearance 16"). Please consider this when choosing your dishwasher. Both machines have standard upper and lower spinning wash and rinse spray arms.

CMA Hi-Temp Sanitizing Wine Glass Rack is great for washing and sanitizing all shapes and sizes of wine glasses. The CMA 181GW Hi-Temp Undercounter Dishmachine is the best model for this application. The machine can also be used for washing dishware with a maximum dish clearance of 11-1/4".

The Wine Glass Rack has adjustable "teeth rails" for proper placement of various stemware sizes. Each stem is securely held on an angle to self-drain concave stem bottoms and reduce breakage. Additional glass rack extensions can be ordered for taller glasses.
